[Verso]

She came to me in rows of white
in the corner of my room.

A spectre of the night,
Silhouetted by the moon.

[Pre-Refrão]

We're floating fast over traffic lights
Bearing down on blackened skies.
Colors burst as I close my eyes.
Ooo-oooh, she said...

[Refrão]

Lay me down in golden dandelions
'Cause I've been waiting for this moment all my life.

Follow me into the dark
Ooh-ooh-ooh-ooh. Ooh
She said lay me down in golden dandelions
'Cause I've been waiting.

[Verso]

A thousand pictures in my mind
in a painting of the past.
I'm brushing over lines,
And I'll paint them all again.

[Bridge]

And aren't we bright
in the candlelight.
I will cradle all these memories
until the end.

[Refrão]

Lay me down in golden dandelions
'Cause I've been waiting for this moment all my life.
