

Bastille - Distorted Light Beam

tom:

Intro: Em D C Am

It isn't enough
 To start a riot
 Distort the light beam

Until I like me
 It isn't enough
 If this is real life
 I'll stick to dreaming
 Come see what I see

Feeling like if this is life
 I'm choosing of fiction, ooh ooh
 Call it faith, call it fame
 The fantasy's the same

When I'm dreaming tonight

I can do anything
 When I'm dreaming tonight

I can go anywhere
 When I'm dreaming tonight

I can be anyone
 So don't wake me up
 Don't wake me up

When I'm dreaming tonight

I can do anything
 When I'm dreaming tonight

I can go anywhere
 When I'm dreaming tonight

I can be anyone
 So don't wake me up
 Don't wake me up

Levelling up
 Delete my history
 Choose how you see me
 And the future's easier

Levelling up
 In here I'm winning
 Defeat the big boss

Game over your loss

Feeling like if this is life
 I'm choosing of fiction, ooh ooh
 Call it faith, call it fame
 The fantasy's the same

When I'm dreaming tonight

I can do anything
 When I'm dreaming tonight

I can go anywhere
 When I'm dreaming tonight

I can be anyone
 So don't wake me up
 Don't wake me up

When I'm dreaming tonight

I can do anything
 When I'm dreaming tonight

I can go anywhere
 When I'm dreaming tonight

I can be anyone
 So don't wake me up
 Don't wake me up

Will I ever

Will I ever, wake up?

Hope I never wake up

I never get tired, no no no no no
 No no no no no

When I'm dreaming tonight

I can do anything
 When I'm dreaming tonight

I can go anywhere
 When I'm dreaming tonight

I can be anyone
 So don't wake me up
