Ooh-ooh-ooh

We're always first to hit the lot & wave to the man in blue now

It's just so early in the morning the grass is all covered with dew now

She's turning on the radio dial

We can sit & listen for a while

She looks so great in the morning she doesn't even have to try now

It's not my metal flame paint that the guys are digging when they pass by now

Outside it could storm

But we'll still keep warm
Instrumental

All the kids are splitting to their lockers but we're still making out in the car now

Just one long kiss & we'll be gone cause two minutes all there are now

Here comes the news

There's no time to lose
