D                                 F
It's not your choice, there's no escaping it
D                         F
Get up and run as far as you can
D                                                   F
Head to higher ground while there's a chance to live

Why go out and see the world on fire
D                              F
Don't let your mindset become what controls you
