

# Beartooth - Sick Of Me Acoustic

Tom: E

m [Intro] Em Am C  
Em Am C

I lost six of my years

Fighting fire with fear

And it's tearing me apart inside

I can point all the blame

Try to relieve the shame

But I think it's time I took back my life

[Refrão]

'Cause I'm sick of the person I used to be

So stressed out, burned out, living in my agony

Hated all the words that they said to me

So I jacked up, blacked out, wasted all those memories

I won't go back

I won't go back

I won't go back

'Cause I'm sick of you

I'm sick of me

I'm sick of the person I used to be

What a pointless mistake

Such a slap in the face

Gotta turn this thing around again

No more holding it back

No more bending the facts

I'll push myself, push myself

'Till I understand

[Refrão]

'Cause I'm sick of the person I used to be

So stressed out, burned out, living in my agony

Hated all the words that they said to me

So I jacked up, blacked out, wasted all those memories

I won't go back

I won't go back

I won't go back

'Cause I'm sick of you

I'm sick of me

I'm sick of the person I used to be

[Ponte] Em Am C C

Save me from the tragedy

All the memories gone bad

Save me from the legacy

From my history

[Refrão]

'Cause I'm sick of the person I used to be

So stressed out, burned out, living in my agony

Hated all the words that they said to me

So I jacked up, blacked out, wasted all those memories

I won't go back

I won't go back

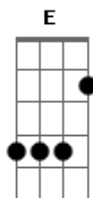

I won't go back

'Cause I'm sick of you

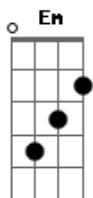

I'm sick of me

I'm sick of the person I used to be
