

Beck Mongolian Chop Squad - Brightest (Baby Star)

Tom: D

(intro) A

I see the light, I see the light that's shooting through
all my doubts and lies, I see the light
I step the ground, I step the ground that's receiving wide
all my sweats and tears and loads and fate, so I step the ground
Born upon a dark sky and shining on my dark side
(A)

I feel the wind, I feel the wind that's blowing off
all my whines and weakness, I feel the wind
In a sleepless night, with a chaotic mind, I could find my star
that led me ahead and took me away to the better ways
Born upon a dark sky and shining on my dark side

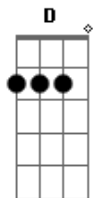

Here comes the star, here comes the one

I see the one that rise on me
Shining up all around the world

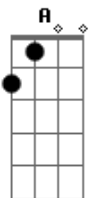

Here comes the star, here comes the one

I see the one
It's the brightest in the world
The one
(A)
The birds are singing and a road is winding
My heart is beating and I'm in the sound
I wonder what, so let me go, yeah I'm gonna know
Here comes the star, here comes the one
I see the one that rise on me
Shining up all around the world
Here comes the star, here comes the one
I see the one
Adding on me a flash, a brave, "decide the way"
Here comes the one
Here comes the only one
Here comes the only one
It's the brightest, the brightest in the world
The one
