

## **Bee Gees - Down The Road**

```
Been rejuvenated to the highest degree
                             tom:
                Gb (forma dos acordes no tom de Eb )
Capostraste na 3º casa
                                                                 Ain't no words describing what this feeling's done to me
                                                                 And I don't care
            G
I don't need anybody, I don't need anyone
                                                                 I'd show my feelings anywhere
Take it nice and easy, mama, chicken on the run and I don't
                                                                 Ain't no heavy Mister Leather's gonna paddle my butt anywhere
care
I'd show my body anywhere
                                                                 Ain't no four leaf clover's gonna settle my luck and I don't
                                                                 care
Ain't no big city winner's gonna pass my buck anywhere
                                                                 Down, down the road, up the road
Ain't no four leaf clover's gonna settle my luck and I don't
                                                                 CFC
care
                                                                 Down, down the road, up the road
Go down to the courthouse and I've been on display
Don't you think that I don't know
It ain't been a perfect day, but I don't care
                                                                 \mathsf{C}\ \mathsf{F}\ \mathsf{C}
                                                                 Down, down the road, up the road
I'd sell my body anywhere
                                                                 C F C
                                                                 Down, down the road, up the road
In the name of creation, I can't find an explanation anywhere
                                                                 CFC
                                                                 Down, down the road, up the road
Ain't no easy rider gonna settle my luck and I don't care
                                                                 CFC
                                                                 Down, down the road, up the road
                                                                 C F C
Down, down the road, up the road
                                                                 Down, down the road, up the road
Down, down the road, up the road
```

## Acordes
