

# Bee Gees - Embrace

tom:

B

I don't know what you want  
 I don't hear what you said  
 Truth behind the lies  
 Cause I can't see what's in your head

B

And spread your wings and fly  
 Out in a brave new world  
 Let this be my prayer  
 To keep you safe when I'm not there

Can we love and live apart?  
 I don't know, no, I don't know  
 How can we divide the heart?  
 I don't know, no, I don't know

And when the night falls, and when the sky falls  
 I long for your embrace  
 And in the cold night, under the street light  
 I long for your embrace

Livin' separate lives  
 I have faith in you, away from you  
 Like a lonely child  
 I will hang on every word  
 Embrace

Through the mists of time  
 Lovers can be friends  
 The power of the human heart

## Acordes

The secrets in the souls of men

All my blessings in disguise  
 I don't know, no, I don't know  
 Reunited we will rise  
 I don't know, no, I don't know  
 And when the night falls, and when the sky falls  
 I long for your embrace  
 And in the cold night, under the street light  
 I long for your embrace

Livin' separate lives  
 I have faith in you, away from you  
 Like a lonely child  
 I will hang on every word

And when the night falls, and when the sky falls  
 I long for your embrace  
 Another daybreak, another heartache  
 I long for your embrace

Living separate lives  
 Away from you  
 Embrace, embrace  
 The lonely, lonely life  
 Lonely days and nights (away from you)  
 We can live our life  
 (Embrace, embrace)  
 With our separate lives  
 Embrace, embrace  
 The lonely, lonely lives  
 Lonely days and nights  
 I will never send away  
 Embrace, embrace  
 The lonely, lonely lives  
 Embrace the child inside  
 The lonely, lonely lives
