

Bee Gees - Embrace

tom:

B

I don't know what you want
 I don't hear what you said
 Truth behind the lies
 Cause I can't see what's in your head

B

And spread your wings and fly
 Out in a brave new world
 Let this be my prayer
 To keep you safe when I'm not there

Can we love and live apart?
 I don't know, no, I don't know
 How can we divide the heart?
 I don't know, no, I don't know

And when the night falls, and when the sky falls
 I long for your embrace
 And in the cold night, under the street light
 I long for your embrace

Livin' separate lives
 I have faith in you, away from you
 Like a lonely child
 I will hang on every word
 Embrace

Through the mists of time
 Lovers can be friends
 The power of the human heart

Acordes

The secrets in the souls of men

All my blessings in disguise
 I don't know, no, I don't know
 Reunited we will rise
 I don't know, no, I don't know
 And when the night falls, and when the sky falls
 I long for your embrace
 And in the cold night, under the street light
 I long for your embrace

Livin' separate lives
 I have faith in you, away from you
 Like a lonely child
 I will hang on every word

And when the night falls, and when the sky falls
 I long for your embrace
 Another daybreak, another heartache
 I long for your embrace

Living separate lives
 Away from you
 Embrace, embrace
 The lonely, lonely life
 Lonely days and nights (away from you)
 We can live our life
 (Embrace, embrace)
 With our separate lives
 Embrace, embrace
 The lonely, lonely lives
 Lonely days and nights
 I will never send away
 Embrace, embrace
 The lonely, lonely lives
 Embrace the child inside
 The lonely, lonely lives
