

Bee Gees - How To Fall In Love

Tom: **D**

I got a **Am** bad sensation The enemy is all around
 The **G** traces of my naked heart Are laid upon the **D** ground
 I suffered **D** side effects That might have been **Bm** forever
 Even in my **Gbm** dreams And I was left alone to **Bm** pray
 When there was **Bb** no one in the way
 And nothin' **D** what it seemed **D D**
 And from a **Am** hard time, play time
 Took a trip around the world
 Made **G** myself invisible
 The taste was in the **D** wine
 And just when the **D** thought of someone
 Needing **Bm** me forever
 I don't **G** believe the words are true
 That only she could be my **Gm** savior

Refrão:

D
 Experience is not enough
 I'll show you how to fall in **G** love
 She said experience is not enough

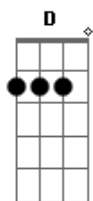

I'll show you how to fall in love

D
 And she's all alone with me
A Bm
 Every night
 And lighting all my **Gbm** days of sorrow
G
 On my own
Gm
 If there was any more to give
D D
 You know I'd sacrifice it for her

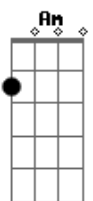

And in the prime of my life
 I was blessed and I was sent
 Someone sweet and innocent
 And nervous when she kissed
 And in the face of my
 Forbidden fruit forever
 Miracles are mine
 And knowing I'm the first
 In her secret universe
 There's no sense of space and time
 You take a small town, young girl
 Someone warm and wonderful
 That any man would understand
 That love is like the wind
 Something deep inside to give you
 And when the words get in the way
 The only thing you need is silence
 Experience is not enough
 I'll show you how to fall in love
 She said experience is not enough
 I'll show you how to fall in love
