

# Bee Gees - Lovers And Friends

Tom: **G**  
Intro: **Am G D**

**D**  
Many are the nights I lie awake,  
I listen to each breath you take  
**G**  
And when your world is cold,  
and you've got no place to go, look for me **D**

**D**  
Many are the moment we're apart,  
I'm half myself, I've got no heart  
**G**  
When my world is cold,  
and I've got no place to go, look for me **D**

**A** **Bm**  
Dreams can die be-fore their born,  
**A** **Bm**  
truth is on the wind,  
**A** **Bm**  
And while we've got each other's souls,  
**G** **A**  
we've got everything

(Chorus)

**D** **Bm**  
Lovers and friends, taken from high above,  
**G** **A**  
I become yours tonight, Tell me it's me you love  
**D** **E**  
Lovers and friends, bound by each other's souls,  
**D**  
And I'm bound to hold you in my hand,

**A** **G**  
And I'll make you understand, and I'll never let you go.

**D**  
Many are the nights I fly alone,  
I dream of you, I dream of home  
**G**  
And it all gets sold away,  
and you don't hear a thing I say, come to me **D**

**A** **Bm**  
Here is life and then it's gone,  
**A** **Bm**  
it's just that way for everyone,  
**A**  
the sun will set on our love everyday

**D** **Bm**  
Lovers and friends, we've only just begun,  
**G** **A**  
as tall as the mountain high, as long as the river runs

**D** **E**  
Lovers and friends, bound by each other's souls

**D**  
And I'm bound to hold you in my hand

and I'll make you understand **A**

And I'll never say goodbye, ... I'll never let you go **D**

(Heavenly angels hard to find, they are of the special  
kind,

**D** **G**  
someone playing on your mind, love is never far behind)  
REPEAT

## Acordes
