

Bee Gees - Lovers And Friends

Tom: G
Intro: Am G D

^D
Many are the nights I lie awake,
I listen to each breath you take
^G
And when your world is cold,
and you've got no place to go, look for me ^D

^D
Many are the moment we're apart,
I'm half myself, I've got no heart
^G
When my world is cold,
and I've got no place to go, look for me ^D

^A ^{Bm}
Dreams can die be-fore their born,
^A ^{Bm}
truth is on the wind,
^A ^{Bm}
And while we've got each other's souls,
^G ^A
we've got everything

(Chorus)

^D ^{Bm}
Lovers and friends, taken from high above,
^G ^A
I become yours tonight, Tell me it's me you love
^D ^E
Lovers and friends, bound by each other's souls,
^D
And I'm bound to hold you in my hand,

^A ^G
And I'll make you understand, and I'll never let you go.

^D
Many are the nights I fly alone,
I dream of you, I dream of home
^G
And it all gets sold away,
and you don't hear a thing I say, come to me ^D

^A ^{Bm}
Here is life and then it's gone,
^A ^{Bm}
it's just that way for everyone,
^A
the sun will set on our love everyday

^D ^{Bm}
Lovers and friends, we've only just begun,
^G ^A
as tall as the mountain high, as long as the river runs

^D ^E
Lovers and friends, bound by each other's souls

And I'm bound to hold you in my hand

and I'll make you understand

And I'll never say goodbye, ... I'll never let you go ^D

(Heavenly angels hard to find, they are of the special

kind,

^D ^G
someone playing on your mind, love is never far behind)
REPEAT

Acordes
