

# Beetle Juice - No Reason

Tom: G

The universe  
Is more than just space with no end

La-la-la-la-la!  
Just think of the universe as a female best friend

And you can be like

Hey, Universe, what's happening, girl?

And she'll be like  
Oh, nothing - just running the world

And you'll be like What?

And the universe will be like, I know!

You're on the right track, girl  
I got your back, girl

I'm helping you grow

Think positive  
Act positive

You are a child of the Earth!  
Life-coaching!  
Nailing it!

Time to take command  
You dictate the hand  
The universe deals  
Look!  
Science makes no sense  
Who needs evidence?  
Go with your feels

I'm like a radio  
Tuned to the stars

I found my frequency  
Crystals speak to me

What are they saying?

Buy more crystals!

Everything, everything happens for a reason

Be a beacon of light in the world

Put a little alright in the world

There is spiritual guides above

Look up and see 'em!

Perception is reality

Just listen to the melody the universe sings

'Cause everything- everything happens for a reason

Gee, I hate to break it to you

The universe is just the contents of time, matter and space  
Ninety-one billion light-years across and the Earth's a small place

Where good people die

No  
Yeah

In famine and wars

The Pacific Islands are sinking  
But negative thinking is hardly the cause

You think life is all unicorns and rainbows 'cause you're bored

And positivity is a luxury that few can afford

We're gonna die  
Yes, you and I

In meaninglessness and alone

No no no!  
No!  
One day you may wake up alone

'Cause your husband and his boyfriend bought a boat

And then they sailed away to Rome

That's specific

So you cry yourself to sleep in deep despair  
Talking to the walls 'cause there's no one there

And you have to buy a cat

'Cause that's your last chance to have a family

Take it from me!

That your aging ass will have to believe that!

Everything- everything happens for a reason

Put some more fun in the world

A little, I am still young, in the world

Be prepared to take your eggs and freeze 'em

Is this still about me?

'Cause everything- everything happens

Sounds like terrible things can happen

Because the universe is random

Yes, but

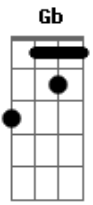

Random for a reason!

No reason
