Another rainy day, we're trapped inside with a train set Chocolate on the boil, steamy windows when we met You've got the attic window looking out on the cathedral And on a Sunday evening bells ring out in the dusk

There's something in my eye a little midge so beguiling Sacrificed his life to bring us both eye to eye I heard the Eskimos remove obstructions with tongues, dear You missed my eye, I wonder why, I didn't complain You missed my eye, I wonder why, please do it again

The lovin is a mess what happened to all of the feeling? I thought it was for real; babies, rings and fools kneeling And words of pledging trust and lifetimes stretching forever So what went wrong? It was a lie, it crumbled apart Ghost figures of past, present, future haunting the heart
