

Belo - Farol Das Estrelas

tom:

G

G

D

Os teus olhos refletem nos meus o farol das estrelas

Te procuro no azul dos meus sonhos para não perde-la

Nossa cama é um porto de amor

Onde espero feliz pra revê-la

Toda linda e cheia de luz

No teu corpo de estrela

É tão bonito o amor que a gente faz

Tem tanta cor, tem tanta paz

Nos braços da estrela cadente, como adolescente eu me dei

Cm

Se o brilho da nossa verdade

Durar para a eternidade

A estrela da felicidade encontrei

A primeira vez que eu te beijei

No céu da Cidade de Neon

Pulei nos teus braços, me joguei

Voei, voei

Voei de prazer no céu de anil

Contigo ao meu lado eu vou voar

Em qualquer lugar desse Brasil

Te amar, te amar
