

Ben Caplan - Seed Of Love

Tom: G

When it rains it pours
 There will be watery days in store
 Growing in pools right there on the floor
 Flowing downstairs and out the door
 When you're in drought don't be in doubt
 Brother for now you can do without
 But when the beautiful clouds come out
 Try not to drown, try not to shout
 (Bm A Em G)

Man, when your dry life can be hard
 That queen of hearts is a fickle card
 And when your hard life can be dry
 No matter how hard you try
 Just, when you think you're stuck
 Bleeding and pleading and down in the muck
 A change of winds a bit of luck
 And girls, just dying to give you a phone number
 Give me a call here's my phone number
 Brother that's all, just a phone number
 But that's all you need
 Man, get that phone number
 Sow the seed of love

The seed of love, no matter how small
 Can blossom and grow or do nothing at all
 But when the rains begin to fall
 Seed of love will sprout
 If only you'd call

When things are juicy and wet
 Brother you better not forget
 Don't go run out after all you can get
 That's a good way to get someone upset
 Brother you're thirsty I know
 But even though rushing waters flow
 You got to try to take it slow
 Or right back to the desert you'll go
 Cause there's many clouds up in that sky
 And though you'd like to drink them dry
 It's not a good idea to try
 All that just keeps floating by

Picture just one cloud, the one that you sought
 Will rain on you if she can see that you fought
 Be in her rain, to love her a lot
 To get really wet and to touch her soul

The seed of love, no matter how small
 Can blossom and grow or do nothing at all
 But when the rains begin to fall
 Seed of love

The seed of love, no matter how small
 Can blossom and grow or do nothing at all
 But when the rains begin to fall
 Seed of love
