

Ben Harper - Gold To Me

```
Tom: C
   Transcribtion & Tab: Briac PILPRE
Tuning: DADDAD (from high to low, or low to high, as you
want!)
Okay for this one I'll use a chord-like presentation, but
you see the chord name, you'll have to do a slide up to the
chord
(i.e. if it's a G chord, you'll have to slide from Gb to G ).
It's
only for the verse...
 For the chorus the strumming technique is really weird.
You've got
to rest your guitar on your lap, strum in dead note and lay
your slide
on every start of measure (I don't know if I'm very clear,
but, anyway,
listen to the record to catch the rythm)
Also, I know there's some mistakes in this transcribtion, so
comment/ correction/ help in any way would be appreciated!)
so here's the chords for this song:
     DADDAD
      3 3 3 3 3 3
G
      5 5 5 5 5 5
D XII 121212121212
      7 7 7 7 7 7
you look like gold to me
and I'm not to blind to see
you look like gold
you make me want to say
with all the joy you bring
you look like gold
Like the rays down from the sun
when a new day has just begun
you look like gold
I've been fooled before
```

```
I've made the mistake in the past
but now I know the difference
from gold and brass
not the kind of gold that you wear
but the kind that can feel my care
you look like gold
some shine when the day is new
but fade when the day is through
but you look like gold
I've been wrong before
but now I know
I've made mistakes in the past
but now I know the difference
from gold and brass
solo:
(You really need to play on an high action guitar with heavy
strings
in order to avoid pull-of buzzes with the slide...)
you look like gold to me
and I'm down on bending knees
you look like gold
and I just want you to know
to me you mean so much more
than all the gold
```

you look like gold

And here's my poor attempt to transcribe the Bass part, which is pretty much the same as Otis Redding 'My Girl' (Cool Song!) (for the verses only):

Acordes

but now I know
