And all these people running into it

And I've got a message that I'd like to've said

He said Little Darling would you be my friend

He said Little Darling would you be my friend, Oh 'till the end

So come on Little Darling won't you dance with me

So come on Little Darling won't you dance with me

So come on Little Darling won't you dance with me

Take my hand and follow me

Take my hand and follow me

Yeah now follow me Darling

Still all these people running into it

And Chinese whispers that they'd all like to've said

Saying Little Darling would you be my friend

Saying Little Darling would you be my friend, Oh 'till the end

So come on Little Darling won't you dance with me

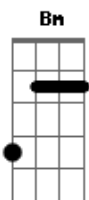

So come on Little Darling won't you dance with me

So come on Little Darling won't you dance with me

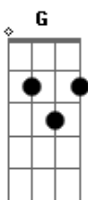

So come on Little Darling won't you dance with me

Take my hand and follow me

Take my hand and follow me

Take my hand and follow me

Take my hand and follow me

Take my hand and follow me

Take my hand and follow me

Yeah now follow me Darling

Memories that I know we'll find

Memories had all this time

These seven little words have been on my mind

Seven words on my mind

Show you a picture I've drawn in my head

Of a lid(?) that i've seen

Come and gone

Going strong

Going home

We're sleepless at the end of the night

So take my hand and follow me

Take my hand and follow me

Take my hand and follow me

We're sleepless at the end of the night

Take my hand and follow me
