

Benson Boone - There She Goes

tom:

Lovely bones, won't you take me home?

'Cause I'm lonely

And hold me close, you're my only ghost

Come on, haunt me

'Cause I'm lonely

And I've been goin' too many days

And it starts to feel the same, every mornin'

And I don't recognize this place

Is it me or have I changed?

They ignore me

And that makes me lonely

And, when I hear my name

I wish that it was you who's callin' out

(Mm-hmm)

There she goes

Like I've never been alone

Like I've had it all along

And, every time I go away, I hate that it's a day

That I never see your face

I'm lost in outer space

And, when I'm lookin' down below

Oh, there she goes

I been floatin' around, every city in town

Cars and bars, I can't figure out

Why these crowded rooms feel empty without you

Every name, every face

Oh, they all start to fade away

Into the back of my mind as I lie awake

Thinkin' 'bout runnin' back to you

So I pack my bags, I'm takin' off, I'm comin' home

There she goes

Like I've never been alone

Like I've had it all along

And, every time I go away, I hate that it's a day

That I never see your face

I'm lost in outer space

And, when I'm lookin' down below

Oh, there she goes

(Bm F C Eb)

Oh, there she goes

Out of the blue, she comes around

She turned my whole life upside down

Out of the blue, out of the clouds

And I can't stop her now

Oh, there she goes

Like I've never been alone

Like I've had it all along

And, every time I go away, I hate that it's a day

That I never see your face

I'm lost in outer space

And, when I'm lookin' down below

Oh, there she goes
