

Bethel Church - Shine On Us

Tom: C

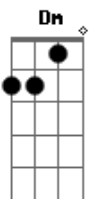

I was stumbling in the darkness
 Couldn't see my hand in front of me
 I was sending up an SOS
 When all was lost, you came running
 Nowhere to run, no where to hide
 You sent the shadows scattering
 When through the clouds a piercing light
 And then I saw you
 Shine, shine, shine like the sun
 You're waking us to life, you've only begun
 Every fear, every doubt disappears when
 You shine on us
 We wanna see you
 Shine, shine, shine like the stars

You are the first love to open my heart
 Every hope, every dream comes alive when you shine on us
 Heart of stone into a prism
 Light of heaven flowing through me
 Black and white to vibrant color
 I'm reflecting your beauty
 I'm overwhelmed I'm overwhelmed
 Just standing in your presence
 Your face illuminates the sky
 (Am F C G Am F C G)
 Shine, shine, shine like the sun
 You're waking us to life, you've only begun
 Every fear, every doubt disappears when
 You shine on us
