

# Better Beware - Midnight Falls

Tom: G

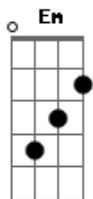

Midnight falls, monsters come out of their shelves  
 Hiding behind funny masks, no one knows their lying selves  
 Heads up, be this, be that no one knows my pain (no one, no one knows your pain)  
 You should do this, should do that, fake diamonds, fake smiley friends  
 I feel like I'm talking and I'm breathing and I'm reaching on another side-side  
 Like a caterpillar trap inside a casket dreaming about a butterfly  
 But you are the one, the one for me  
 The only one that hears me on the other side  
 Pull me back into the sky  
 When I'm with you I don't have to change (everything stays the same)

Midnight falls, monsters come out of their shelves  
 Hiding behind funny masks, no one knows their lying selves (2x)  
 [Melanie Martinez]  
 Don't be this, everybody's trying to be fit into a mold  
 Alice in the wonderland woke up, she's waking up  
 You got me and you fade it out my soul  
 And you gotta raise your voice y'all  
 Raise your voice  
 Get it up get it up  
 Life is a rollercoaster once you get in to the motion  
 Set all free coz you are loosing all the fun  
 Walking, talking, breathing, reaching on the other side  
 Waking, dreaming, beeing myself I must try reach the other side  
 I'm hidden too long in the shadows and dead inside  
 Dr. Evil cut it wings coz he knew that a day I could fly
