             Dbm         E
Think of you all the time
A         Ab
Love rushes with the tide
Dbm                E
Is it too late for us to try
A                 Ab
Waves crush like you and I

Dbm              E
It all feels right when you're by my side
A         Ab
Nothing to fear only on a high
Dbm              E
If only this lasted without goodbyes
A         Ab
Why can't we make pass this fight

Dbm         E              A
Can we hold on for one more night
             Ab
Tonight just you and I
Dbm         E            A
Can we push through just one last time
              Ab
We've tried and tried and tried

Dbm                E
I should let you go but I don't want to
A                    Ab
I should let you go, no, I don't want to
Dbm                E
I should let you go but I don't want to
A                    Ab
I should let you go
