Bia Freitas - Please, Stay

```
                           tom:
                G
```

```
               G
Being alone always made me scared
G
Makes me think who I am
G
Never the dark, the absence of light
G
Makes it's own way
```

```
G
I told you to go, you don't have to stay
G
I screwed enough for today
```

```
G
But when I'm hurting
             C
I push you away
      Em        C
But you keep staying
G
When I'm hurting
             C
I push you away
        Em.  C
But you keep staying
G
Please, stay
```

```
( G  G  G )
( G  G  G )
( G  G  G  G  )
```

```
G
I always thought the sky is too high
G
But I always wanted to go there
G
I always try to keep my thoughts
G
In a positive way
```

```
G
But when I'm hurting
             C
I push you away
      Em       C
But you keep staying
G
When I'm hurting
             C
I push you away
        Em.   C
But you keep staying
G
Please, stay
```

```
G       G G     G G G
I've got one heart, I need to save it
G       G G     G
I've got one heart, I gave it to you
