

# Big Mouth - Everybody Bleeds

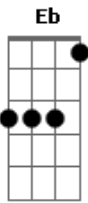

tom:  
 When the ovum first descends  
 It is expelled  
 And it's expelled with the uterine lining  
 And the flow  
 And the menstrual flow begins  
 Out the vagina  
 Out the vagina it all comes sliding  
 No, no you're not alone  
 Cause everybody bleeds

From time to time  
 So let flow  
 Friendships fall apart  
 And leave a shameful stain  
 On the white pants of your heart  
 And everybody bleeds  
 Like your insides are exploding  
 Everybody bleeds  
 Life's all heartaches, cramps and bloating  
 Everybody bleeds
