

# Big Time Rush - Halway There

Tom: C  
Intro: 4x:

Am  
When the chips are down  
Back against the wall  
Got no more to give  
Cause we gave it all  
Seems like going the distance unrealistic  
But we're too far from the start  
So we take what comes and we keep on going  
Leaning on each other's shoulder  
Then we turn around  
And see we come so far somehow  
We're halfway there  
We're looking good now  
Nothing is going to get in the way  
We're halfway there  
Looking back now  
I never thought I'd ever say  
We're halfway there  
We're halfway there  
If we never flew  
We would never fall  
If the world was ours  
We would have it all  
But the life we live  
Isn't so simplistic

You just don't get what you want  
So we take what comes  
And we keep on going  
Leaning on each others shoulder  
Then we turn around  
And see we've come so far somehow  
We're halfway there  
We're looking good now  
Nothing is going to get in the way  
We're halfway there  
Looking back now  
I never thought I'd ever say  
We're halfway there  
We're halfway there  
How ya ever gonna reach the stars?  
If you never get off the ground?  
And you'll always be where you are  
If you let life knock you down  
We're halfway there  
We're looking good now  
Nothing is going to get in the way  
We're halfway there  
Looking back now  
I never thought I'd ever say  
We're halfway there  
We're halfway there  
We're halfway there
