

## Big Time Rush - I Won't Give Up

```
Tom: Ab
                                                             No I won't give up
                                           D )
(com acordes na forma de
Capostraste na 6ª casa
                                                             I don't wanna be someone who walks away so easily
When I look into your eyes
                                                             I'm here to stay and make the difference that I can make
                                                             Our differences they do a lot to teach us how to use
It's like watching the night sky
               G D
                                                             The tools, the skills we've got yeah we got a lot at stake
Or a beautiful sunrise
Theres so much they hold
                                                             And in the end, you're still my friend at least we didn't tend
                   G D
And just like them old stars
                                                             For us to work we didn't break, we didn't burn
I see that you've come so far
                                                             We had to learn how to bend without the world caving in
                 G D
To be right where you are
                                                             I had to learn what I got, and what I'm not
                                                                    D
How old is your soul?
                                                             And who I am
             G
                                                                          G
I won't give up on us
                                                             I won't give up on us
            Bm
                                                                         Bm
Even if the skies get rough
                                                             Even if the skies get rough
             G
                                                                          G
I'm giving you all my love
                                                             I'm giving you all my love
I'm still looking up
                                                             I'm still looking up
                                                             I'm still looking up
And when you're needing your space
                                                                         G
                                                             I won't give up on us
          G D
To do some navigating
                                                                         Bm
                                                             God knows I'm tough, he knows
I'll be here patiently waiting
                                                                    G D
                                                             We got a lot to learn
To see what you find
                                                             God knows we're worthy
Cause even the stars they burn
                                                                         G
                                                             I won't give up on us
           Bm D
Some even fall to the earth
                                                                         Bm
         G
                                                             Even if the skies get rough
We got a lot to learn
                                                             I'm giving you all my love
            Α
God knows we're worthy
                                                                           Α
                                                             I'm still looking up
           G D
```
