

Big Time Rush - No Idea

Tom: C

^F
I'll love you, if you ain't got nobody to love
^F
^C
And girl I'll adore you, if there's no one to adore
^F
And I'll show you, if there's no one to show
^F
^C
And I'll know you, if you want somebody to know

^F
Every time you come around
^C
You put a lightning bolt on my face

^F
Baby, everytime you come around
^C
Girl, you take my breath away

^F
^C
And I just wanna breathe until I take you in

^C
Cause I want you to breathe until you take me in
But the truth is

^C
She has no idea, no idea
^{Am}
That I'm even here, I'm even here

^C
She has no idea, no idea
^{Am}
I'm standing here, I'm standing here
I'm standing here

^F ^C
I'll kiss you, whenever you want to be kissed

^C
How I miss you two seconds after you leave screaming "come back to me, come back to me"

^C
Let me please you, let me see you, let me take that heart of yours

^F
^C
And I'll be whatever you need me to be -- the good guy, bad

guy, just tell me baby

^C ^F
Every time you come around
^C
You put a lightning bolt on my face

^C ^F
Baby, everytime you come around
^C
Girl, you take my breath away

^F
^C
And I just wanna breathe until I take you in

^C
Cause I want you to breathe until you take me in
But the truth is

^C
She has no idea, no idea
^{Am}
That I'm even here, I'm even here

^C
She has no idea, no idea
^{Am}
I'm standing here, I'm standing here
I'm standing here

^F
Please tell me you can heal me
I'm expressing my love

^C
Won't stop till I get you
I'm not letting up

^F
I'm running to your heart
Like a kid in a store

^C
Take every ounce of love
And beg you for more
And beg you for more

^C
She has no idea, no idea
^{Am}
That I'm even here, I'm even here

^C
She has no idea, no idea
^{Am}
I'm standing here, I'm standing here
I'm standing here
