

Bill Sulton - Xenophobia

Tom: C

Let's be xenophobic! It's really in this year
 Let's find a nasty, slimy, ugly alien to fear
 There's no more cutesy stories 'bout E.T. phoning home
 Let's learn to love our neighbors, like the Christians learned in Rome!
 We know we ought to hate 'em; they're different, you see
 We've seen they're mean and ugly on movies and TV
 The folks that ought to know have told us how it's got to be
 The gospel truth is found in scenes from Alien and V

Let's wipe out any lifeform that seems to be a threat
 We'll serve 'em up a genocide they never will forget
 'Cause if we miss a couple, they'll breed a couple more!
 And soon we'll all be hating twice as many as before
 You see, aliens can never be as good as humankind
 A more delightful race than us you'll never, ever find
 So step aside, you star slime, we're ready for your worst!
 We know you want to beat us, enslave us and defeat us
 Oppress us and browbeat us, unless we get you first!
