Billie Eilish - BIRDS OF A FEATHER

```
С
                                                                I want you to see, mmm
                tom:
                D (forma dos acordes no tom de C )
                                                                                Am
Capostraste na 2ª casa
                                                                How you look to me, huh
                                                                                  Dm
                          С
                                                                You wouldn't believe if I told ya
I want you to stay
                                                                                   G
                   Am
                                                                You would keep the compliments I throw ya
Till I'm in the grave
              Dm
Till I rot away, dead and buried
                                                                But you're so full of shit, hmm
                  G
                                                                                Am
Till I'm in the casket you carry
                                                                Tell me it's a bit, oh
                                                                                   Dm
                                                                Say you don't see it, your mind's polluted
If you go, I'm going too, uh
                                                                               G
                                                                Say you wanna quit, don't be stupid
                       Am
'Cause it was always you, uh
                                                                С
                      Dm
                                                                                                  Am
And if I'm turning blue, please, don't save me
                                                                And I don't know what I'm crying for
                  G
                                                                                                Dm
Nothing left to lose without my baby
                                                                I don't think I could love you more
                                                                It might not be long, but, baby, but I
Birds of a feather, we should stick together
                                                                Don't wanna say goodbye
      Am
I know I said I'd never think I wasn't better alone
                                                                (Birds of a feather, we should stick together)
Dm
Can't change the weather, might not be forever
     G
                                                                Till the day that I die
But if it's forever, it's even better
                                                                        Am
                                                                (I know I said I'd never think I wasn't better alone)
                                                                Till the light leaves my eyes
С
                                 Am
And I don't know what I'm crying for
                                                                 Dm
                                                                (Can't change the weather, might not be forever)
                                 Dm
I don't think I could love you more
                                                                Till the day that I die
It might not be long, but, baby, I
                                                                But if it's forever, it's even better
I'll love you till the day that I die
                                                                С
                                                                I knew you in another life
                      Am
Till the day that I die
                                                                Am
                                                                                                Dm
                           Dm
                                                                You had the same look in your eyes
Till the light leaves my eyes
                                                                            Dm
                                                                                             G
                                                                I love you, don't act so surprised
                    G
Till the day that I die
