

Billy Bragg - A New England

```
I'm just looking for another girl
                                Billy plays the song on an
                                                                    I don't want to change the world
electric guitar and the whole song is pretty much just \operatorname{\mathsf{palm}}
With some open strums in between. But I noticed some tabs were
                                                                    I'm not looking for new England
way off and others close
                                                                             Bb
                                                                    I'm just looking for another girl
I'm going to make a better one
Note: play F power chords palm muted and quick and pull off
every 8th note on the E
                                                                 I loved the words you wrote to me
For every "F" so
                                                                 But that was bloody yesterday
                                                                 Bb

                                                                 I saw two shooting stars last night
I was twenty-one years when I wrote this song
                                                                 I wished on them but they were only sattelites
I'm twenty-two now but I won't be for long
                                                                 Is It wrong to wish on space hardware?
                                                                        Bb
People ask me when will you grow up to be a man
                                                                 I wish I wish you'd care
                                                                 I don't want to change the world
But all the girls I loved at school are already pushing prams
                                                                 Ends with
I loved you then as I love you still
                                                                G|-10-| |-10-| |-8-|
D|-8-| |-10-| |-8-|
Though I put you on a pedestal, I put you on the pill
                                                                 -Outro-
I don't feel bad about letting you go
                                                                  F, C, Bb, C
I just feel bad about letting you know
(Before each chorus he plays a quick opens strum of Bb so it's
like a 16th note of just
Strums then back to palm muting...)
  I don't want to change the world
                                                                 And I KNOW THIS TAB ISN'T 100% CORRECT. BECAUSE THERE ARE SOME
                                                                 OTHER PULL OFFS AND
                                                                 But I HOPE IT HELPS YOU OUT ! =]
