Billy Lockett - Burn It Down

Tom: C
Intro: F Am G

```
                F    Am                  G
I'll burn it down, and build it up better
          F      Am           G
Sometimes it hurts to forget the past
          Am                    C
And I'm tired of waiting for something to
          G
Happen with you
          Am                    C
And I'm trying to save it, but deep down
                      G
There's nowhere to move

          Am                         C
And I'm getting lost, soaked to the bones
              F       G
With nothing to prove
          Am                         C
I'm covered in hope, I'm feeling with doubt
                  F                    G
That I'm not over you, no I'm not over you
          F    Am                  G
So why burn it down, to build it up better
          F      Am           G
Sometimes it hurts to forget the past
              F      Am
```

```
I'll burn it down
                          G
And bring it back stronger
                    F    Am                 G
Sometimes it's screwed to forget the past
                  Am                     C
And I'm taking your words, my heart in the
          G
Palm of your hands
              Am                       C
And I'm putting my trust in an entire
              G
Half-empty glass
                  Am                     C
And I'm getting tired of making excuses
                  F      G
To find it won't last
              Am                     C
I'm covered in hope, feeling with doubt
                  F                    G
That I'm not the last, no I'm not the last
              F    Am                  G
So why burn it down, build it up better
          F      Am           G
Sometimes it hurts to forget the past
          F      Am           G
Oh burn it down and bring it back stronger
                    F    Am                 G
Sometimes it's screwed to forget the past
```
