

# Birdy - Maybe

Tom: G

Maybe, I know it's just maybe

And we're only dreaming

For how this will go, o-o-oh

But maybe, one day this daydream

Would turn into real things

For all that we know, o-o-oh

We could be doing anything that we love

Just be carried by the way the wind blows, o-o-oh

You could be doing anything you dream of

If you believe in the things that make you strong

Someday, we'll meet on the high street

We'll laugh about when we

Worried about what we might be

Then maybe, we'll talk about old days

We'll smile in our old ways

You'll always be part of me

We could be doing anything that we love

Just be carried by the way the wind blows, o-o-oh

You could be doing anything you dream of

If you believe in the things that make you strong

(C D Em )(x2)

You could be doing anything you dream of

If you believe in the things that make you strong

Maybe, I know it's just maybe

And we're only dreaming

For how this will go, o-o-oh

Just maybe

You could be doing anything you dream of (Maybe)

Maybe
