Black Label Society - Last Goodbye

Tom: E

   Tuning: Standerd

This is an piano song, so I tried to put the piano chords, to guitar chords. And there
an solo.
Intro:

Verse
Drums come in

Then you here the base come in (still in verse)

    Verse   / Chorus starts here   \

       \   /

Then everything again.

Play the intro 2X when the drums thingie is going on.

And instead of Gbm play C#m7, but I am not sure of that.

I am not sure but I think they play the intro under the whole
solo, or intro and the verse.

Solo:

This is not the correct thing but it indicates what notes you
must play

Solo:

                                          Some fast picking here

Last time
    1X   1X

Acordes
