                                    Spoke in the wheel
                                    Verse lead fill 1

   C              G              Em7
play 4                              lead fill 2
times
                                    lead fill 1

Chorus                              Intro: C  G  Am
                                    C         G              Am
                                    Lord, I Question Whether I've had my fill
                                    C         G                   Am
                                    Lord, I Question whether I can take much more
                                    C         G              Am
                                    you may laugh as I lay here bleeding
                                    C         G          Am
                                    no more afters or befores

end Chorus                          G         Am              C
                                    Some day you'll know just how I feel
                                    G             Am      C
                                    you left me there twice before
                                    G         Am              C
                                    Some day you'll know just how it feels
                                    G
                                    shattered, cast aside, stripped of your pride
                                                          Am
Play Verse (2x)                     like you were never nothing special
                                                      C
Play Chorus (replace 2 first measures by Fill 1 and measures 7  made you feel like another spoke in the wheel
to 10 by Fill
2)                                  C    G    Am    2x
play verse (x2) w/ guitar solo
                                    C         G              Am
guitar solo                         so you say im just another dollar
                                    C         G              Am
qb = quick bend, tr = trill, br = bend and release  so you say I'm just another day yeah
/ = slide up, \ = slide down, . = short note        C         G                  Am
16___ = hold note                   once my blood was strong but now its jaded

                                                      C
                                    and its thin unlike you
                                    C         G              Am
                                    I can still tell right from wrong

                                    G         Am              C
                                    Some day you'll know just how I feel
                                    G             Am      C
                                    you left me there twice before
                                    G         Am              C
                                    Some day you'll know just how it feels
                                    G
Play Chorus (replace measures 7 to 10 by Fill 2)    shattered, cast aside, stripped of your pride
