

Black Pumas - Old Man

tom:

Intro: Gm F Gm F

Gm F Old man, the world is on your shoulder

And your heart is on your sleeve

May you find the pretty things

To beat the stormy weather

Sunsets over water

Show you how to dream in the sweet power of love

Sure enough, brother, sure enough, sister

The sweet power of love will keep us elevated, baby

When the sun don't shine

When the clouds come home

And we can't go on holding on

Ain't no need to worry, baby

If you've got soul then you got fire

Ain't no need to worry, baby

Let my love take you higher

Old man, when your mind is downtrodden

By the powers that be

Remember where you come from

The sweet power of love

There's so much lovin'

So much coming

The sweet power of love

Will keep us elevated, baby

Even when the sun don't shine

When the clouds come home

And we can't go on holding on

Ain't no need to worry, baby

If you've got soul then you got fire

Ain't no need to worry, baby

Let my love take you higher, higher

I want to kick it with you

Lets kick it together

I want to kick it with you

Lets kick it together

I want to kick it with you

Lets kick it together

(Gm F)
