{Drum Opening}

Watched the universe at the death of another day, fatalistic
ships from a distant shore.

In the back of my mind I could feel she was standing there,
like the feeling you have when
before.

She was a Gypsy Woman, she was as cold as the day, yeah

She said I got it comin', and then she took me away!

She took me through the shadows of her sunken dream.

I thought "It's over for me." She wasn't all she seemed.

She took my hand and then she started to speak

She told me she haad the call

With eyes of fire that were burning my soul

She looked into her crystal ball

She read my fortune then she read my mind

She didn't like my thoughts at all

She showed me shadows, a spectre of life

My soul just wanted to scream

She said "Look deeply, into my eyes."

That's when I fell into a dream

When I awoke in bed she lay beside me

And as she read me with her eyes, she said..

(Guitar 2)

Gypsy Woman you're the Devil in drag

You are the Queen of all Hell

You took my body, now you wasted my soul

You've got me under your spell

And as the sun shines on another day

You're gonna take my mind as well, it's over!
