

Blackberry Smoke - Run Away From it All

Tom: **F**

Standin' on a bridge, see the water keep flowin' by, by
F **C** **G**

I flipped a quarter in the river, then I headed for the other side, side
G

I made the same wish that I always do
F **C** **C**

I'm just fool enough to think they ever come true
Em **Em** **C**

Came in like a lion, now I'm out like a lamb
D

They don't even know who I am
D

Miles and miles wide open for me
G

Got it all laid out so beautifully
Am

Don't you worry 'bout a thing, baby, we can run away from it all
C

Old ghost whistle in the wind in the dead of night, night
F **C** **G**

I'm walkin' through the valley of the shadow headin' for the light, light
G

I wore out my welcome like I always do
F **C** **C**

Got to find myself a life that's shiny new
Em **Em** **C**

They say that the truth is gonna set us free
D

I ain't waitin' 'round to see
D

Miles and miles wide open for me
G

Got it all laid out so beautifully
Am

Don't you worry 'bout a thing, baby, we can run away from it all
C

Squeezin' every drop outta what's left of my time
G

Jumpin' on tomorrow before it goes by
Am

No matter what they say, babe, we can run away from it all
C **G**

(**Gm**)
 (**D**)

Miles and miles wide open for me
G

Got it all laid out so beautifully
Am

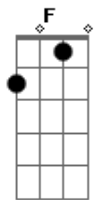

Don't you worry 'bout a thing, baby, we can run away from it all
C

Squeezin' every drop outta what's left of my time
G

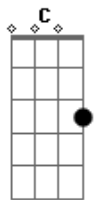

Jumpin' on tomorrow before it goes by
Am

No matter what they say, babe, we can run away from it all
C **G**
