

Blackfield - Welcome To My Dna

Tom: **Ab**

Intro: **Fm Eb Db**

Fm
DNA
Eb **Db** **Fm**
Welcome to my DNA
Eb **Db** **Ab** **Eb**
Stupidly you want to stay with my DNA

DNA
You cannot fix what you get
Thing that I try to forget in my DNA

Chorus:

Bbm **C** **Bbm** **C**
Can you forgive me for things that I've said?
Bbm **Fm**
Things that I've done?

C **Fm**
Go now and never come back

DNA
We all got expiry dates
Trust me there's no get away from my DNA

DNA
Wires of sadness and pain
Always remaining the same, my DNA

Disarmed by the music, there's bombs in my head
You'll always get burned
Go now and never come back

During melody: **Fm, D#, C#, C** x2

My deadly venom, soon I'll be dead
Go now my love
Go now and never come back
