Tom: C

F  
You could be the coldest star  
C  
You could be a work of art  
Am G  
You could be a diamond undiscovered in the dark  
F  
You could be the mystery  
C  
That'll change history  
Am G  
You could be that buried treasure  
F C  
Don't be afraid to show them who you are  
Am G  
This is the moment you've been waiting for

Chorus:  
F C  
You, you're catching fire  
Am  
I can see it in your eyes  
G F  
Just a spark, it will ignite you  
C  
You're catching fire  
Am  
Like a flame inside the night  
G  
Light it up, you're burning bright  
F C Am  
You..

G  
you're catching fire

C  
If we just believe  
Am  
Then we will see  
G F  
There's a light meant to shine in you and me  
C  
Never let 'em blow it out  
Am  
Never let 'em put you down  
G  
Don't try to keep it undercover  
F C  
Don't be afraid to show them who you are  
Am G  
This is the moment you've been waiting for

F  
You will never know

Until you try  
C  
Go, go for it

You could be surprised  
Am  
What you dream

Could become your life  
G  
In time, in time
