

# Blind Pilot - Two Towns From Me

Tom: D

Remember <sup>D</sup> the world living in the half  
 That you cannot see  
 Been walking <sup>D</sup> along the thinning tide  
 And stepping in too deep  
 Watching water thread my sleeve  
 What did I pull from underneath

Tie it down wait it out  
 And hope our memories hold  
 But that white nail driven down  
 A hundred years ago  
 Feeling wheels on my old road  
 Feeling buff for what I sold

I had a dream you were two towns from me

Got to sleep, spent the whole night running  
 ( D D Bm ) (2x)

Diving gold wet their breath  
 And live in between  
 Hollow bones knowing both  
 What they want and what they need  
 How I want that mystery  
 Let me dive 'til I believe

I had a dream you were two towns from me  
 Got to sleep, spent the whole night, whole night  
 Had a dream were nothing more than  
 Caught up in our own lives, honey

( D D Bm )

D ( D ) Bm  
 End on  
 ( A )
