

Blind Pilot - Two Towns From Me

```
Tom: D
Remember the world living in the half
        Bm
That you cannot see
Been walking along the thinning tide
          G
                 D
And stepping in too deep
Watching water thread my sleeve
What did I pull from underneath
Tie it down wait it out
           Bm
And hope our memories hold
But that white nail driven down
        Bm G
A hundred years ago
                        Bm
                               G D
Feeling wheels on my old road
Feeling buff for what I sold
I had a dream you were two towns from me
```

```
Got to sleep, spent the whole night running
( D D Bm ) (2x)
      D
Diving gold wet their breath
        Bm
And live in between
Hollow bones knowing both
What they want and what they need
                    Bm G D
How I want that mystery
Let me dive 'til I believe
I had a dream you were two towns from me
Got to sleep, spent the whole night, whole night
Had a dream were nothing more than
Caught up in our own lives, honey
( D D Bm )
D ( D ) Bm
( A )
```
