[Primeira Parte]
                                                                         C
                                                                 We just need some time away

I see signs up in the sky
                                                                 Woah woah
Disappear before my eyes
                                                                 Why is everyone afraid
Woah woah
                                                                 To be themselves not imitate
Guess we?re all desensitized

Forgot the meaning of our lives

[Pré-Refrão]

                                                                 So lost I wanna leave

Remember when we were young and we?d laugh at everything
                                                                 We thought we knew everything
Got caught up in a world that forgot how to dream
                                                                 Where did our childhood go
I?d never thought we?d end up here
                                                                 I wanna know
We?re back in time to the best years
