

Blink 182 - Misery

Tom: G
Intro:

Primeira parte:

I'm a wreck, I'm out of time, I barely made it out alive
I'm not bent, I'm not cracked, I'm just broken
I watched the fire, burn the sea, I wrapped my car around a tree
Hold me up, underneath, this heavy burden

Pré-Refrão:

There's a halo in the distance
Salvation's barely out of reach

Refrão:

Torn apart like the brokenhearted
Up in smoke with the fire we started
Misery loves company, I don't need anyone
Smash it up like there's no tomorrow
Leave me here with the fear and sorrow
Misery loves company, I don't need anyone

(D)

Segunda parte:

Tied up to a heart of stone, I screamed into a microphone
I burned the bridge, so I won't find my way home
Lay with me, I can't sleep, misery loves company
When I'm bent, when I'm cracked, when I'm broken

Pré-Refrão:

There's a halo in the distance
Salvation's barely out of reach

Refrão:

Torn apart like the brokenhearted
Up in smoke with the fire we started

Misery loves company, I don't need anyone

Smash it up like there's no tomorrow
Leave me here with the fear and sorrow
Misery loves company, I don't need anyone

I don't need anyone
I don't need anyone
I don't need anyone
I don't need anyone, I don't need anyone

Ponte:

(G D Em C)

Fifteen times a night, when the sun's gone down
In the dark awake, and you're not around
And the closest thought is the edge of oblivion

Fifteen times a day when you check your phone
And it won't be there and you're all alone
Cause we always lived on the edge of oblivion

Left to find our way through a Hitchcock film
In an empty bed with an hour to kill
Cause it's only fun on the edge of oblivion (oblivion)

Refrão:

Torn apart like the brokenhearted
Up in smoke with the fire we started
Misery loves company, I don't need anyone

Smash it up like there's no tomorrow
Leave me here with the fear and sorrow
Misery loves company, I don't need anyone

I don't need anyone
I don't need anyone
I don't need anyone
I don't need anyone, I don't need anyone
