Tom: A
Intro: 8x:

Parte do Piano durante o verso:

A Dm
I felt a stutter at a waiver
cutting like a razor
Like fire through the snow
then straight down to the bone

She creeps up like a spider
and wants you deep inside her
She turns you into stone

A
A twisted little show
Segunda guitarra/baixo toca durante o refrão:

A Db A
Last night, it was to all begin
cause good girls, they like to sin
way back at the starting line
when Eve was on Adam's mind
And he was the first to go
in search of the great unknown
And falling yet again
Cause good girls, they like to sin

A Dm
You are a hero and survivor,
your eyes are getting tired

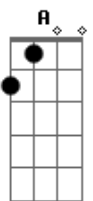

Dm
There's clawmarks up your spine,
it happens all the time

Dm
The silent, evil daughters
like sirens on the water
You've been the perfect crime
It happens all the time

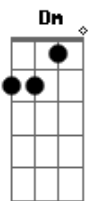

A Db A
Last night, it was to all begin
cause good girls, they like to sin
way back at the starting line
when Eve was on Adam's mind
And he was the first to go
in search of the great unknown
And falling yet again
Cause good girls, they like to sin
