

# Blink 182 - When We Were Young

tom:  
Intro: E

[Primeira Parte]

When we were young the world felt so small  
 When we were young nothing could break us apart  
 Do you know your eyes are like stars?  
 Summer nights making out in my car

[Refrão]

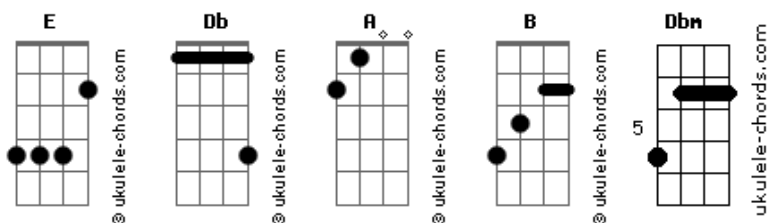

When we were young  
 Are you still loud and free like every other?  
 When we were young  
 Nothing's too fast cause we explode together

When we were young  
 Do you still think of me like maybe ever?  
 When we were young  
 Losing something we had when we were younger

[Passagem]

[Segunda Parte]

## Acordes

Back in the day we used to say "fuck them all"  
 Prodigal sons were second to none they gave me a job  
 Now I'm stuck at work like a typical jerk with nowhere to go  
 We fell out of touch now everything sucks I'm out on my own

[Refrão]

When we were young  
 Are you still ridin' free like every other?  
 When we were young  
 Nothing's too fast cause we explode together

When we were young  
 Do you still think of me or maybe never?  
 When we were young  
 Losing something we had when we were younger
