Blur - Fool

```
                        tom:
                    D
Intro: D  G  Em  G
        D  G  Em  G
        D  G  Em  G
```

[Primeira Parte]

```
D                G              Em      G
Sorry, but I don't understand
        D              G        Em          G
The things you say, they make no sense at all
D            G              Em      G        D          G
Em  G
Funny, but I think that you mean them all this time, don't
you?
```
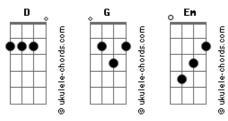

[Refrão]

```
    D                 G            Em    G
I know that you think I'm a fool
                    D            G          Em
But couldn't you try to forgive a fool
          G
One more time?
```

[Segunda Parte]

```
D                 G            Em          G
Sorry, but I'm not really listening
        D                G          Em    G
```

```
I've got my mind on something else
        D            G          Em      G
And sometimes I wonder if I'm here
          D            G
If I'm here at all
```

[Refrão]

```
    D                 G            Em          G
I know that you want me to go, don't you?
              D        G          Em    G
Well, it's not as easy as it seems
        D          G            Em                G
I know that you think I'm not here at all
              D        G      Em      G
But I'm just as fed up as you
```

Ah-ah-ah

(D G Em G)

[Terceira Parte]

```
    D                 G            Em    G
I know that you want me to leave
        D          G          Em      G
I'm amazed at how cold you can be
                  D      G      Em        G            D
Em
Well, may my weak and insipid soul grow stronger in your
absence
```
