

# Blur - No Distance Left To Run

Tom: E  
 It's over,  
 you don't need to tell me  
 I hope you're with someone,  
 who makes you feel safe in your sleep  
 Then tonight,  
 I won't kill myself trying to stay in your life  
 I got no distance left to run

Verse 2:  
 When you see me,  
 turn your back and walk away  
 I don't want to see you because

I know the dreams that you keep  
 is where we meet  
 When you're coming down think of me  
 I got no distance left to run

(Middle)

Verse 3:  
 It's over,  
 I knew it would end this way  
 I hope you're with someone who makes you feel  
 that this life, is alive  
 And it settles down, stays around  
 Spends more time with you  
 I got no distance left to run
