=====

- This song is relatively simple to play along to since it just repeats itself over and over again. Its also great to play while smoking:) To properly simulate the guitar, I use a phaser with the rate and width knobs turned to the maximum settings. You could also use a flanger with the rate and depth cranked up but with the res knob fully anticlockwise. Anyway, here it goes..

F C  
Eb add7(?) Bb  
Dm Ab

Here are the words:

I think too much  
on things I want too much  
and I'm resigned to that,  
  
Only you can fill my blank heart  
and I'm resigned to that.  
  
I wish the sun  
could just keep me warm  
and I'm resigned to that  
  
I'll forget to breathe someday  
I never stop to think why.

- I did this from memory, so if you think there's a mistake and something doesn't sound right, you're probably correct. The song is just chord arpeggiating (sp.?) and its easy to play around with the pattern...
