

Bob Marley - Soul Shakedown Party

Tom: F

C | Bb

we gonna have a soul shakedown party tonight
we gonna have a soul shakedown party tonight

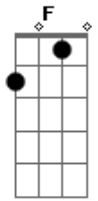

the way you love me, it's alright
the way you put your loving arms around me and you hold me
tight
this is my invitation

I got the special vacation
I need your concentration
just to feel your vibration

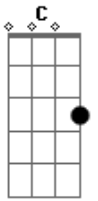

I got soul shakedown party tonight
we gonna have a soul shakedown party tonight

janey's in the backyard doing the outside dance
from telling me the other day, she didn't even get a chance
but this is my invitation
I got the special vacation
I need your concentration
just to feel your vibration
