

B.o.B - The Dodos

Tom: **A**

(com acordes na forma de)

I've got a lot to prove...

I've played the part of cool...

I listen good I listen well...

I've heard her scream I know she yells...

There's not a lot that I could write...

Your name is Bob you smoke a pipe...

But we're the same, we are one piece...

You sit and stare of into space...

You spend your time you spend my life...

I take it hard because I try...

To have a stroll to have a walk...

I know it's hard for you to change...
